#### **SECTION 4: First aid measures**

#### Description of first aid measures 4.1. First-aid measures after inhalation : Remove victim to fresh air and keep at rest in a position comfortable for breathing. First-aid measures after skin contact Take off immediately all contaminated clothing. Wash off immediately with soap and plenty of water. If skin irritation occurs: Get medical advice/attention. First-aid measures after eye contact Rinse immediately and plentifully with water, also under the eyelids, for at least 20 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Do not induce vomiting. Never give anything by mouth to an unconscious person. Immediately First-aid measures after ingestion get medical attention. Caution if victim vomits: Risk of aspiration!. 4.2. Most important symptoms and effects, both acute and delayed Symptoms/injuries after inhalation : May cause irritation to the respiratory tract. Injection under the skin of pressurized hydrocarbons can cause severe, permanent tissue Symptoms/injuries after skin contact damage. May cause skin irritation / dermatitis. Symptoms/injuries after eye contact May cause eye irritation. Swallowing the liquid may cause aspiration into the lungs with the risk of chemical pneumonitis. Symptoms/injuries after ingestion Caution if victim vomits: Risk of aspiration!. 4.3. Indication of any immediate medical attention and special treatment needed No additional information available **SECTION 5: Firefighting measures** 5.1. Extinguishing media
